Professional Profile

Multidisciplinary design and communications professional with commercial experience since 2022, combining brand and packaging direction with campaigns, illustration, 3D imagery, motion, print production and digital experiences. At Jus'Amazin, lead the visual function across the company's 85+ SKU portfolio, connecting founder briefs, retail observations, visual systems, supplier decisions and factory execution.

Bring a fine-art foundation, a University of Mysore gold medal in B.V.A. Applied Art, an independent design practice and art-teaching experience. Co-founded SVARNART Academy and develop its identity, visual-arts curriculum, learning resources and digital workflows. Pursue brand and art-direction work where creative thinking and practical delivery are equally important.

Professional Experience

Jus'Amazin Foods and Beverages Pvt Ltd | Bengaluru

Manager - Communication Design | December 2024-Present

- Lead brand and packaging direction across 85+ SKUs, including core nut butters, Desi Energy Bar, Mom Bar, Lil'Stars, Mom2B, 30-Second Almond Drink, superfoods, snacks and gifting formats.
- Own the creative workflow from brief, retail observation and concept development through typography, illustration, dielines, product imagery, proofing and final production handoff.
- Develop brand guidelines, colour and information hierarchies, reusable packaging templates, social systems, email creative, marketplace assets and physical retail communication.
- Conceive and direct campaigns across quick-commerce, retail, social and motion. Work includes Almond Drink comparison and kinetic-type films, Desi Energy Bar's launch system and Superfoods communication.
- Direct Blender product modelling, materials, cameras, lighting and rendering for product listings, campaign presentations and packaging visualisation; connect image direction with the physical pack.
- Coordinate digital, offset and rotogravure suppliers through RFQs, quotation comparison, material and quantity decisions, prepress, colour proofs, artwork approvals and release instructions.
- Maintain artwork and operational trackers, including a directory of 277 print-ready files. Coordinate ingredient, nutrition and claim changes with quality colleagues and founders while retaining responsibility for visual artwork checks.
- Use AI-assisted scripting, concept exploration, video/audio prototyping and development to support production; retain responsibility for final creative and artwork decisions.

Visual Communicator / Packaging Designer | August 2023-November 2024

- Rebuilt fragmented legacy artwork into a coherent packaging family across jars, bars, pouches, sachets and cartons, with consistent typography, category colours and product-information hierarchy.
- Extended packaging into retail POS, product listings, corporate gifting, trial formats and sub-brand assets. Prepared structural keylines, print-ready files and supplier handoffs.
- Established reusable visual assets and design-to-print workflows while working directly with founders, operations, sales and external printers; promoted effective December 2024.

Commercial context: The company recorded 176% revenue growth in FY2024-25, based on internal records. Design contributed alongside product, sales and operations; this is a shared company outcome.

Selected Projects and Production Contributions

Desi Energy Bar | Retail research to packaging rollout

- Conducted a 25-store Bengaluru retail study and developed the "Structured Chaos" direction: high-contrast blue, Indian street-play references, hand-drawn characters and a structured product-information grid.
- Carried the direction into wrapper artwork, retail dispenser boxes, physical colour tests and processed proofs. Coordinated progression from a 6,000-pouch digital trial in 2024 to a 160,000-pouch rotogravure order in January 2026.
- Internal records report monthly product volume moving from approximately 250 to 8,000 units following rollout, a shared product outcome with design contributing alongside other functions.

Core jars and sub-brands | A coherent multi-format family

- Reworked 38+ core jar-label variants and extended the system across trial jars, larger jars and tubs, adapting presentation for glass and PET formats and different retail channels.
- Developed distinct visual identities and imagery for Lil'Stars children's nutrition and Mom2B maternal products while retaining a connection to the parent brand.
- Applied consistent hierarchy to ingredients, nutrition, allergens, barcode placement and product claims, working with quality colleagues for content verification.

Universal pouch and Superfoods | Design for the packing line

- Developed a shared pouch with modular front/back labels and printed corner-alignment guides to reduce reliance on workers judging sticker placement by eye.
- Tested physical label placement with operations and production colleagues; supported repeat 1kg common-pouch orders of 18,000 and 19,000 units in 2025 and 2026.
- Internal observations reported labelling throughput moving from approximately 100 to 400-500 pouches per hour. This is a team outcome and an observational estimate, rather than a controlled measurement.

Snack rollout and artwork releases | Supplier coordination at scale

- Prepared and coordinated an 80,000-pouch order across eight snack variants in July 2026. Reviewed supplier proofs, identified a profile variation and requested correction before print release.
- Combined compatible label sizes into shared print runs and assessed printing methods against quantity, lead time, material needs and artwork stability.
- Managed release links and status checks so vendors received current artwork; coordinated press holds and replacement files when product information changed after initial approval.

Almond Drink campaigns and gifting | Packaging beyond the shelf

- Developed Almond Drink sachet, bottle and multipack communication, extending the visual identity into campaign concepts, scripts, storyboards, editing, kinetic typography and product renders.
- Created corporate gifting boxes, sleeves, trial-jar labels, message cards and partner adaptations, including E-flute and rigid-box formats.
- Designed retail displays, exhibition collateral and vehicle graphics, linking visual direction with structural, printing and installation requirements.

Independent Practice and Education Experience

Sivnco Studio | Founder and Creative Director

2025-Present | Bengaluru and remote | Independent practice alongside employment

- Develop brand identities, packaging, campaign direction, illustration, art commissions and 3D visualisation. Define briefs, scope, deliverables and production requirements.
- Design and maintain sivnco.in as a portfolio and project archive, using AI-assisted development for responsive pages, motion, interactive GLB product displays and an embedded visitor assistant.
- Maintain a personal practice in drawing, watercolour, acrylic painting and mixed media, including exhibited work; bring studies of light, colour and composition into commercial projects.

SVARNART Academy | Co-Founder and Curriculum Lead

January 2026-Present | Bengaluru | svarnart.com

- Co-founded a music and visual-arts academy with Harshada. Lead visual-arts teaching, identity, studio branding, operational documentation and digital workflow design; Harshada leads Carnatic music.
- Develop staged learning across observation, drawing, value, colour theory, composition and painting. Adapt exercises, demonstrations and feedback to learner needs.
- Create an interactive art-theory handbook, colour/light exercises, art-history quizzes and practical assignments. Contributed to April-May 2026 summer-camp cohorts, scheduling, progress and parent communication.
- Design student and teacher workflows for attendance, curriculum access, resources, certificates, communication and student portfolios through AI-assisted React/Vite and Firebase development.
- Translate academy operations into product requirements; develop and test payment reconciliation and administrator-workspace improvements.

Openhouse Technologies Private Limited | Art Teacher Partner

1 April 2025-30 April 2026 | Bengaluru

- Taught drawing, watercolour/acrylic painting, colour, composition and visual thinking to 20+ weekly learners; adapted lessons and demonstrations to different levels of confidence and experience.
- Tracked student development, communicated progress to parents and supported engagement through practical exercises and demonstrations.
- Across teaching and independent mentoring, supported design-entrance portfolio preparation and student showcases featuring 120+ artworks.

Refresh Kid LLC | Graphic Designer

November 2022-November 2023 | Remote contract | United States

- Created educational video content, mathematics explainers and PSAT solution visuals, translating concepts into clear visual sequences.
- Produced social media creative, marketing banners and brand assets; collaborated asynchronously across time zones through briefs, revisions and delivery.

Earlier Engagements

- **Kannada and Culture Department, Karnataka | Freelance Photojournalist | December 2022:** Event photography, image selection, editing and delivery.
- **Deep Thoughts | Student Researcher | September 2022:** Student-research engagement.
- **Muskurahat Foundation | Fundraiser | September-December 2021:** Donor outreach.
- **Unschool | Campus Influencer | October-November 2021:** Course promotion.
- **WhiteHat Jr | Customer Service Representative | September-October 2021:** Customer communication and service support.

Capabilities and Applied Toolkit

Brand and Packaging

Brand identity, art direction, brief interpretation, retail observation, visual storytelling, typography, illustration, category differentiation, sub-brands, flexible packaging, structural keylines, gifting, retail POS and marketplace imagery. Experience spans jars, tubs, wrappers, centre-seal and stand-up pouches, sachets, cartons and boxes.

Campaigns and Visual Storytelling

Concept development, moodboards, scripts, storyboards, photography direction, Blender modelling, materials, camera composition, lighting, rendering, motion graphics, video editing, kinetic typography, social and email communication.

Production and Design Operations

Digital, offset and rotogravure workflows; prepress, bleed/seam margins, barcode checks, Pantone/CMYK, proofing, colour registration, artwork version management, supplier coordination, RFQs, quotation comparison, specifications and factory handoffs. Materials include matte BOPP, metallised PET, PE, PP labels and paperboard.

Digital Products and Experiences

Information structure, interface and workflow design, responsive layouts, interactive product displays and AI-assisted development using HTML, CSS, JavaScript, React/Next.js, React/Vite, GSAP and Firebase-based workflows. Use GitHub and deployment tools within portfolio and academy projects.

Art and Education

Observational drawing, watercolour and acrylic painting, mixed media, illustration, photography, composition and printmaking. Curriculum planning, staged learning resources, demonstrations, learner feedback, portfolio mentoring, parent communication and progress documentation.

Software and AI Tools

Adobe Illustrator, Photoshop, InDesign, After Effects and Premiere Pro; Blender, Figma, Procreate, Canva and Framer. AI-assisted concept, coding and video/audio work includes Antigravity, Runway ML and ElevenLabs, with human review of final outputs.

Education and Recognition

Bachelor of Visual Arts in Applied Art | 2019-2023

Chamarajendra Govt College of Visual Arts (CAVA), Mysuru | University of Mysore. University gold medal for B.V.A. Applied Art, recorded in 2024. Study included visual communication, advertising, typography, illustration, photography, colour, composition and project work.

Fine Art Foundation Studies | 2017-2019

CAVA, Mysuru. Foundation practice in drawing, painting and visual fundamentals.

Certifications and Professional Development

- Google Ads Creative Certification | Google Skillshop | August 2026; valid through August 2027.
- Digital Skills User Experience | Accenture / FutureLearn | August 2026.
- AI Fluency for Educators | Anthropic Claude Academy | August 2026.
- AI Fluency for Small Businesses | Anthropic Claude Academy | August 2026.
- Inclusive Education Exploring SEND Practice and Strategies | University of Leeds / FutureLearn | August 2026.

Languages and Availability

Kannada, English and Hindi; conversational Tamil and Telugu. Bengaluru-based; open to full-time brand/art-direction and packaging-design opportunities, remote collaboration and selected independent engagements.
