

H P SHIVARAJ

HEAD OF DESIGN & ART DIRECTION

Brand, Packaging & Visual Communications · FMCG · D2C

Bengaluru, Karnataka, India · +91 84312 72507 · sivnco.in@gmail.com · sivnco.in · sivnco.in/campaigns · linkedin.com/in/shivaraj-designer

PROFILE

Head of Design and Art Director with 4+ years of commercial design experience and 3+ years of in-house brand ownership. Leads brand and design systems for FMCG and D2C brands across packaging architecture, print production, retail, digital campaigns, motion, 3D visualisation and vendor execution.

At Jus Amazin, owns the workflow from brief and visual direction through artwork, dielines, prepress, press proofing, production and final communication. Promoted from Visual Communicator to Design & Communications Manager within 18 months — while serving as the organisation's sole designer — and has designed and managed 15+ SKUs across jars, bars, pouches, sachets and cartons.

Rooted in a fine art practice: University of Mysore Gold Medalist (B.V.A. Applied Art), with 19 original exhibited works and an active painting practice alongside commercial design work.

SELECTED IMPACT

- 15+ SKUs designed and managed end-to-end.
- 176% FY2024-25 revenue growth during Jus Amazin tenure (internal company data; design was one contributor alongside product, sales and operations).
- 2.5x increase in brand recall following the master brand design system rollout (internal estimate).
- 70% increase in snacking-range sales and 34% share of total brand revenue (FY2024-25) for the Desi Energy Bar range (internal company data).
- 40% faster asset turnaround / design efficiency gain (internal estimate).
- 5x factory-floor packaging throughput increase — about 100 to 400–500 units/hour — after introducing print-integrated alignment guidelines on the Superfoods range (internal estimate).
- Production and press runs up to 200,000+ units.

PROFESSIONAL EXPERIENCE

Jus Amazin Foods & Beverages Pvt. Ltd. — Bengaluru

Design & Communications Manager — Functional Head of Design & Art Direction | Dec 2024 – Present

- Lead the company's end-to-end visual function across physical, print and digital touchpoints.
- Direct brand identity, packaging architecture, campaign concepts, retail POS, social systems, product photography and 3D visualisation.
- Own the workflow from brief and concept through artwork, dieline, prepress, proofing, production and final delivery.
- Creative-directed the 30-Second Almond Milk (30 SAM) campaign from insight, script and storyboard through motion concept, kinetic typography and packaging rebrand; reported results include 20K impressions, 6,000+ mid-funnel conversions and 11,000+ orders over a 45-day attribution window (leadership-confirmed figures).
- Developed the Desi Energy Bar “Structured Chaos” launch system using field research across 25 stores, custom character design, nostalgia-led retail strategy and colour engineering for long-range shelf presence; contributed to a 70% increase in snacking-range sales, scaling the line to 8,000 units/month (from 250 units in month one) and 34% of total brand revenue in FY2024-25, alongside a reported 58% increase in retail brand recognition (internal company data).

- Redesigned the Superfoods pouch range's back-of-pack typography and front-of-pack identity to turn regulatory compliance copy into a trust signal; engineered a universal master-pouch format with swappable label overlays in response to a budget constraint, cutting per-SKU print costs while unifying shelf presence across the range.
- Authored print-integrated alignment guidelines for the Superfoods packaging line, raising factory-floor labelling throughput roughly 5x, from about 100 to 400–500 units/hour (internal estimate).
- Built the master brand design system, guidelines and reusable templates that reduced dependence on external design support, improved cross-team asset turnaround, and contributed to a reported 2.5x increase in brand recall (internal estimate).
- Supervise Pantone matching, substrate decisions, colour registration and press proofing for flexographic, offset, digital and rotogravure press runs up to 200,000+ units.
- Direct Blender product modelling, materials, camera, lighting and final renders for Amazon, quick-commerce listings and marketing decks.
- Applied an AI-augmented production workflow — custom LLM agents for brief ingestion, generative moodboard synthesis (Midjourney/Flux), scripted vector dieline grids and AI-assisted production pre-flight — cutting select brief-to-brief turnaround by a reported 90–95% (from approximately 6 hours to 12 minutes). AI is used to accelerate early-stage exploration and admin; all final artwork, dielines and creative decisions are reviewed and finished by hand (internal estimate).

Jus Amazin Foods & Beverages Pvt. Ltd. — Bengaluru

Visual Communicator / Packaging Designer | Aug 2023 – Nov 2024

- As the organisation's sole designer, built the foundations of the 15+ SKU packaging and communication system across spreads, energy bars, superfood powders, sachets and cartons.
- Reworked inconsistent legacy artwork into a coherent colour, typography, hierarchy and photography system.
- Created social media visual systems, email templates, product listings and packaging compliance layouts.
- Worked with print vendors on RFQs, samples, specifications, artwork handoff, approvals and production quality checks.
- Promoted within 18 months to Design & Communications Manager / Functional Head of Design & Art Direction, based on creative ownership and measurable commercial impact — having carried full design responsibility alone across packaging, 3D, motion, social and vendor management as the sole designer in the organisation.

Sivnco Studio — Founder & Creative Director

Independent studio practice, run alongside full-time employment | Aug 2025 – Present | Bengaluru / Remote

- Define creative direction, scope, visual systems and delivery standards for D2C, FMCG and lifestyle brand projects spanning identity, packaging systems, art direction, illustration and 3D visualisation.
- Built and maintain the Sivnco portfolio and enquiry platform, including a custom AI assistant embedded for visitor Q&A.
- Develop concepts that connect brand strategy to practical production and channel requirements.
- Maintain an active fine art and exhibition practice — semi-abstract acrylic landscapes and mixed-media work drawing on Indian classical art and heritage.

Svartart Academy — Co-Founder & Curriculum Lead

Weekend venture — Saturday and Sunday only | Jan 2026 – Present | Bengaluru

- Co-founded a Saturday–Sunday multidisciplinary creative learning venture combining visual art, design education and Carnatic music; lead curriculum architecture, learning experience and academy brand direction.
- Designed staged learning pathways for art and music, from foundational observation, colour and composition through advanced practice, projects and performance-oriented progression.
- Built interactive learning resources including a digital art-theory handbook, colour and light exercises, art-history quizzes and gamified modules that make abstract concepts easier for children to practise.

- Architected and shipped the academy's full-stack LMS/ERP product in Vite and React, with Firebase Auth, Firestore, Razorpay payment integration, batch scheduling, live classrooms, portfolio progress, report cards and operational records.
- Designed the academy identity, communication materials and digital presence, translating the teaching philosophy into a coherent student and parent journey across programmes, showcases and online communication.
- Implemented role-based access and two-tier content-safety controls — client-side lexical filtering plus AI-based moderation review — for a child-focused learning environment.
- Deployed custom AI agents across Svarnart and Sivnco to handle routine queries and generate initial briefs, reducing administrative time spent away from design and teaching.

Openhouse Technologies Private Limited — Art Teacher Partner

Apr 2025 – Apr 2026 | Bengaluru

- Taught art within Openhouse's play-based learning centres for children aged 1–10, using observational drawing, colour, composition, painting and visual-thinking activities.
- Adapted lesson plans to learner age, prior experience and creative goals; communicated progress to parents and supported a positive classroom experience.
- Mentored 200+ students, including portfolio-development learners preparing for NID, NIFT and Srishti (independent portfolio mentoring ongoing since 2023); curated annual student exhibitions featuring 120+ artworks.
- Experience letter records the engagement as 1 April 2025 – 30 April 2026 and describes strong student engagement and batch performance.

Refresh Kid LLC — Graphic Designer

2022 – 2023 | Remote, United States

- Created educational video content for mathematics learning, translating concepts and problem-solving into clear, engaging visual explainers for the Refresh Kid YouTube channel.
- Developed supporting social media creatives, marketing banners and brand assets for a US-based EdTech company.
- Worked asynchronously across time zones with reliable communication, structured review cycles and deadline discipline.

CORE CAPABILITIES

Brand & Art Direction: Brand identity systems · Design systems · Visual language · Creative concepts · Campaign direction · Visual storytelling · Photography direction · Brand guidelines

Packaging: FMCG packaging · Multi-SKU architecture · Dielines · Packaging hierarchy · Shelf impact · Flexible packaging · Substrate selection · FSSAI/regulatory layouts

Print & Production: Prepress · Pantone matching · Flexographic, offset, digital and rotogravure workflows · Vendor coordination · Press proofing · Production QA

Digital & Commerce: Social systems · Email templates · Amazon A+ · Blinkit · Zepto · Retail POS · E-commerce product imagery · Motion graphics · Educational video content

Illustration, 3D & Tools: Vector character design · Vector rigging · Mascot creation · Blender · Adobe Illustrator · Photoshop · InDesign · After Effects · Figma · Procreate · Premiere Pro · Substance 3D · Spline

Digital Products, Creative Technology & AI: Next.js · Vite · React · Firebase Auth · Firestore · Razorpay · PWA · WebGL · Framer · HTML/CSS/JavaScript · Supabase · Netlify · Custom LLM agents · AI-assisted concept development (Midjourney, Flux, Runway ML, ElevenLabs) · AI workflow automation (brief ingestion, moodboard generation, production pre-flight)

Learning Experience: Curriculum architecture · Learning pathways · Interactive educational content · Student/parent experience · Creative programme design

EDUCATION

B.V.A. in Applied Art (CBCS Program)

Chamarajendra Govt. College of Visual Arts (CAVA), Mysuru — University of Mysore | 2019 – 2023

Fine art, visual communication, typography, colour theory, illustration, composition and printmaking.

Award: University of Mysore Gold Medalist — B.V.A. Applied Art (course topper), Arts Gold Medal & Cash Prize, 104th Annual Convocation, 3 March 2024.

SELECTED RECOGNITION

"Shiv doesn't just design — he builds systems. The Jus Amazin packaging is one of the most coherent brand rollouts I've seen for a D2C brand at our scale. Every SKU told the same story."

— Jitin Munjal, Co-Founder & CEO, Jus Amazin

"What sets Shiv apart is his ability to blend art sensibility with commercial clarity. He understands the brief, then exceeds it — every single time."

— Shilpa Moglishetty, Co-Founder & CEO, Jus Amazin
